

Flextail Zero Power 10,000 mAh Power Bank (Black)

Model: ZERO POWER-B

Manufacturer: FLEXTAIL

EAN: 6975755966793

Product Code: 1154870

R1,934

Flextail Zero Power 10000mAh Power Bank (Black)

The Flextail Zero Power 10000mAh is an ultra-compact power bank designed for maximum portability and minimal weight. With a thickness of just 9.9 mm and a weight of 145 g, the device is lighter than most smartphones and takes up 55% less space than standard power banks in this class. Its slim form factor allows for convenient carrying in a pocket or backpack, or clipping onto outdoor gear.

Durable Carbon Fiber Housing

The housing, made of a forged carbon fiber structure, provides exceptional resistance to mechanical damage while maintaining a very low weight. This material, used in high-end designs, combines rigidity with structural flexibility, which increases the device's durability in demanding outdoor

conditions. The design remains impact-resistant, including against contact with sharp trekking tools, confirming its suitability for intensive outdoor use.

Smart Power Management and High Efficiency

The power bank is equipped with a smart SoC and a high-energy-density cobalt battery, ensuring efficient use of stored power. Energy conversion efficiency reaches 95%, and energy losses have been reduced by up to 30%, which increases the actual amount of available energy during use. The automatic charging stop system protects devices once they are fully charged, preventing unnecessary energy consumption.

22.5 W Fast Charging and Operating Modes

The maximum output power of 22.5 W allows for rapid recharging of mobile devices—for example, the iPhone 15 Pro reaches 50% charge in about 26 minutes. The device offers two operating modes: standard mode and smart performance mode, which increases the available power by up to 30%. In smart mode, the indicator LED turns orange, while during fast charging it glows green, making it easy to monitor the device's operation.

Emergency Reserve and Safety

Zero Power is equipped with an emergency reserve feature that locks the last 10% of the battery capacity. This energy reserve allows you to make a call, use GPS, or turn on the flashlight in critical situations. Safety features include protection against overheating, short circuits, overvoltage, overload, and over-discharge.

Ready for the Field

The device is designed to operate in harsh conditions—it features an IPX4 water resistance rating against splashes and stable performance at low temperatures down to -10°C. The reliability of the design has been confirmed by tests involving over 40,000 connection and disconnection cycles, ensuring a long service life even with heavy use.

Practical Solutions for Travel

The integrated USB-C cable also serves as a lanyard, allowing you to conveniently attach the power bank to a backpack or outdoor gear. This keeps the device within easy reach at all times, enhancing comfort during travel, trekking, or other outdoor activities.

Included in the set

- Flextail Zero Power power bank
- USB-C charging cable
- Carrying case
- User manual

Specifications

Manufacturer	Flextail
Model	Zero Power
Color	Black
Battery capacity	10,000 mAh (38.7 Wh)
Rated capacity	7,000 mAh (5V/1A)
Rated capacity	5,200 mAh (12V/1.67A)
Maximum Output Power	22.5 W
Ports	2 × USB-C
Input Specifications	5V/3A, 9V/2A, 12V/1.5A
Maximum input power	18 W
Output specifications	5V/3A, 9V/2.22A, 12V/1.67A, 10V/2.25A
Maximum output power	22.5 W
Efficiency mode	5V/1A
Voltage boost efficiency	95%
Protection rating	IPX4
Temperature resistance	down to -10°C
Housing material	forged carbon fiber
