The Lanberg FF01 series rack offers efficient storage solutions in a freestanding setup. This cabinet features a robust metal construction along with tempered-glass elements, making it suitable for various environments. With a manageable size of 800 x 1000 mm, it accommodates up to 22 rack units and supports a weight limit of 1200 kg, providing ample space for equipment. The included grounding cable, M6 screws, and various locks ensure secure assembly and stability. This rack is equipped with six cooling fans, a thermostat, and an LCD screen to monitor internal conditions.

effectively. The perforated front and rear doors enhance airflow, while design elements like a 215-degree door opening and vertical cable management panels facilitate access and organization. Each unit complies with multiple standards including ETSI and DIN, ensuring quality and reliability for your professional setup.
