Darkflash DB330M Computer Case + 3 Fans (White)

The Darkflash DB330M is a compact and stylish case designed for high-performance configurations for office work and beyond. It is compatible with M-ATX and ITX motherboards and supports graphics cards up to 305 mm in length. Thanks to its compact dimensions of 400 x 218 x 333 mm, it's perfect for spaces where every inch counts, without sacrificing functionality. The set also includes three ARGB fans.

Effective cooling

The DB330M case is equipped with three ARGB fans that not only ensure optimal cooling but also look great. Thanks to them, you can give your setup a unique, gaming-inspired look! Additionally, numerous ventilation openings and vertical airflow channels ensure optimal heat dissipation. Don't

worry about your computer overheating! What's more, depending on your needs, the case can accommodate up to 5 fans or a water cooling system (240 mm at the top and 120 mm at the rear).

Ample space for components

Despite its compact dimensions, the DB330M model offers space for a graphics card up to 305 mm in length and a CPU cooler up to 180 mm in height. It easily accommodates modern, high-performance components, making it the ideal choice for those building their first gaming or high-performance workstations. But that's not all. The case offers four graphics card slots—you don't have to limit yourself to just one!

Flexible Drive Installation

The case supports various SSD and HDD configurations—you can install one SSD and one HDD, or two HDDs. This allows you to flexibly customize your system to your needs! Thanks to this, you don't have to worry about running out of space for your files.

Several useful ports

The case features one USB 2.0 port and one USB 3.0 port, which enables fast data transfer. Additionally, an audio jack is available, allowing you to conveniently connect headphones or a microphone.

Minimalist design

The DB330M case not only lets you build a powerful computer but also enhances your setup. It stands out with its minimalist, modern design featuring transparent panels. Pair it with RGB-backlit components for a unique visual effect! Numerous cable grommets are also available to help you organize your cables neatly. And if necessary, you can easily remove the left and right side panels—no additional tools required.
