

MERACH MR- 2440G1-EU vibration platform (gray)

Model: MR-2440G1-EU

Manufacturer: MERACH

EAN: 5905156103573

Product Code: 1165932

R4,408

MERACH MR-2440G1 vibration platform (gray)

Home training can be effective, comfortable, and enjoyable at the same time—just reach for the MERACH MR-2440G1 vibration platform. The efficient vibration system with high power and amplitude supports deep muscle activation, and three intensity levels allow you to smoothly adjust your workout to your mood and form on any given day. The stable, wide design provides a sense of security and comfort, even during dynamic sessions. Smart auto-start and pause functions and a clear control panel simplify operation, while Bluetooth connectivity with a speaker turns every workout into a motivating moment for yourself. It's a compact solution that helps you exercise regularly and enjoyably — without leaving home.

Full control with smart start and pause

The MERACH MR-2440G1 is equipped with a built-in gravity sensor that automatically starts the device when you step on the platform and gently move side to side. When you step off the device, it goes into pause mode after 30 seconds and automatically turns off after 10 minutes. This is not only convenient, but also saves energy and ensures safe use.

Customize your workout with three adjustable intensity levels

Different foot settings allow you to adjust the intensity of the vibrations. A narrower setting provides gentler vibrations ("Walking - Relax" mode), a wider setting increases their power ("Running - Strong" mode), and the intermediate position offers a comfortable "Jogging - Comfortable" workout. This allows you to move freely from a relaxing session after work to intense muscle activation - without changing equipment.

Deep muscle activation with 200 W of power and 13 mm amplitude

At the heart of the device is a powerful 200 W motor that generates vibrations with an amplitude of 13 mm. These parameters translate into deep muscle stimulation - even those that are difficult to reach during classic training. The result? Better muscle tone, improved circulation, support for body shaping, and greater effectiveness of every minute of exercise.

Stability and safety - train confidently, without worry

The platform has been designed for maximum stability. Non-slip suction cups prevent the device from moving, and the shock-absorbing design reduces shocks and vibrations transmitted to the floor. The wide surface (72 × 38 cm) ensures comfort even for people with a larger body build, and the maximum load capacity of 200 kg allows you to train without restrictions.

User-friendly surface and clear display

The soft, skin-friendly silicone mat increases grip and comfort during exercise, even when barefoot. The centrally located LED display allows you to monitor the time and operating mode. Everything is intuitive and clear, so you can focus solely on your workout.

Training with music - built-in Bluetooth

The built-in Bluetooth module (2.4 GHz) allows you to connect the platform to your smartphone and play your favorite music during exercise through the built-in speaker. Training becomes a pleasure, and the rhythm helps you stay motivated. It's a detail that affects your regularity and commitment.

Included:

- MERACH MR-2440G1 vibration platform x1
- Remote control x1
- AAA batteries for remote control x2
- Rubber stopper x1
- Power cord x1
- User manual x1

Manufacturer	MERACH
Model	MR-2440G1
Rated power	200 W
Vibration amplitude	13 mm
Maximum load	200 kg (440 lbs)
Device dimensions	72 × 38 × 16 cm (720 × 380 × 160 mm)
Net weight	10.5 kg (23 lbs)
Platform width	72 cm
Power supply	220–240 V ~ 50/60 Hz
Display	LED

Wireless connectivity Bluetooth

Gross weight: 11580, Net weight: 10500, Box length: 73,00, Box width: 42,00, Box height: 18,50,
