Model: IM001-BSI

Manufacturer: EUHOMY

EAN: 5905156101296

Product Code: 1168462

R2,270

Euhomy IM001 1.2L 12kg Ice Cube Maker (silver)

The EUHOMY IM001 is a compact ice cube maker that brings convenience and freshness to your kitchen. Thanks to its small dimensions (22.2 × 29 × 29.5 cm), the device fits easily on a countertop or in a home bar without taking up valuable space. Despite its compact size, the IM001 can produce up to 12 kg of ice per day – that's about 2160 cubes in 24 hours. The first batch of 9 cubes appears just 6 minutes after starting.

Ice cubes ready in minutes

The EUHOMY IM001 can produce 9 ice cubes in just 6 minutes and up to 12 kg in 24 hours – that's over 200 servings for lemonade, iced coffee, or juice. That's up to 5 times faster than traditional ice cube trays in refrigerators.

Easy to use

Using the ice maker is a breeze. Just pour in water, press the button, and you're done – the device will do the rest. The LED panel lets you know when you need to add water or empty the basket. The set also includes a scoop and an ice container that holds about 0.6 kg of ice cubes.

Well-thought-out solutions

The EUHOMY IM001 produces so-called bullet ice – smooth, rounded cubes that cool drinks quickly but melt more slowly. This means that the ice does not dilute the taste of drinks and is ideal for cocktails, juices, or iced coffee. Importantly, the ice from the ice maker has no smell or taste, as is often the case with ice from the freezer.

Self-cleaning in 30 minutes

Keeping the device clean is easy – just one press to start the automatic cleaning cycle, which takes about 30 minutes and eliminates up to 99% of bacteria. Activating the process takes only 5 seconds. To maintain complete hygiene, the manufacturer recommends using EUHOMY cleaning agent and descaling the device once a month.

Compact and energy-efficient

The ice cube maker takes up little space compared to larger models – its dimensions are 22 × 29 × 29.5 cm. It will easily fit on a kitchen counter or in a kitchenette. At the same time, it operates in energy-saving mode and is ClimatePartner certified, confirming its low emissions and environmental friendliness. So you can enjoy cool drinks without worrying about your electricity bills or the impact on the planet.

Included in the set

- ice cube tray
- handle
- ice scoop
- ice container
