DDPAI Z90 Master Dual Dash Cam

The DDPAI Z90 Master Dual is a dual-channel dash cam that allows you to record 4K video both in front of and behind the vehicle. The front camera uses an 8-megapixel Sony STARVIS 2 IMX678 sensor, while the rear camera is equipped with a 5-megapixel Sony STARVIS 2 IMX675 sensor. It also features a 3-inch screen, 5 GHz Wi-Fi and Bluetooth 5.1 connectivity, voice control, app support, a GNSS module, and a 3-axis G-sensor. Rounding out the package is a supercapacitor, which performs well in devices operating under varying temperatures inside a car.

Detailed imagery thanks to Sony STARVIS 2 sensors

The front camera can record footage at a resolution of 3840×2160 at 30 or 25 fps, as well as 2880×1620 at a smooth 60 fps. The 1/1.8" Sony STARVIS 2 IMX678 sensor works with an F1.75 aperture lens and provides a 135° field of view, allowing the camera to capture a wide section of the road ahead of the car. The rear camera offers 3840×2160 recording at 25 fps, a 126° field of view, and a

bright F1.7 aperture, allowing you to accurately document the situation behind the vehicle as well.

Convenient Operation and Fast Wireless Connectivity

The built-in 3-inch display with a resolution of 640 × 360 provides convenient access to the device’s basic functions. The DDPAI Z90 Master Dual also supports a mobile app and 5 GHz Wi-Fi, which facilitates wireless communication with the dashcam and access to recorded footage. Bluetooth 5.1 and voice control support further enhance the convenience of using the camera during daily commutes.

Location Tracking and Automatic Event Detection

The dashcam is equipped with a 3-axis G-sensor that detects G-forces caused by sudden events on the road. The built-in GNSS module works with GPS, BDS, GLONASS, GALILEO, and QZSS, providing broad support for location data. The device also features a microphone and speaker, allowing it to record audio along with video footage and deliver messages to the user.

Manufacturer	DDPAI
Model	Z90 Master Dual
Display	3"
Display resolution	640 × 360 px
Front Camera Resolution	3840 × 2160 at 30 fps, 3840 × 2160 at 25 fps, or 2880 × 1620 at 60 fps
Rear Camera Resolution	3840 × 2160 at 25 fps
Front sensor	Sony STARVIS 2 IMX678, 1/1.8", 8 MP
Rear sensor	Sony STARVIS 2 IMX675, 1/2.8", 5 MP
Front camera field of view	135°
Rear camera field of view	126°
Front camera aperture	F1.75
