

COUGAR CGR-5C78W-RGB Midi Tower White

Model: 385C780.0002

Manufacturer: COUGAR

EAN: 4710483776885

Product Code: 1171736

R4,460

Performance Is Everything

Discover the perfect balance of cost-efficiency and performance with the Uniface RGB mid-tower case. Flexible, top-tier water cooling support and efficient ventilation cools your system even under intensive conditions, while adaptability reigns with versatile motherboard compatibility.

Bang For Your Buck

Designed with an exceptional blend of affordability and performance, this mid-tower case ensures that staying within budget doesn't mean you have to compromise on quality.

Maximum Security

Crafted with precision and durable materials, the Uniface RGB guarantees your components' protection and the reliability you can depend on, keeping your valuable hardware safe and secure.

Flexible Cooling Options

With the choice of 420mm front panel or 360mm top panel water cooling support, keep your system optimally cool even during demanding tasks.

Quad Protection

Quad dust shields guard against particles and ensure a clean, efficient system. Magnetic shields on the front and right sides supplement the standard magnetic top and sliding bottom covers, prioritizing easy installation and cleaning without compromising protection.

Versatile GPU Compatibility

Designed to accommodate a maximum GPU length of 400mm with bracketless horizontal/vertical orientation options, this mid-tower provides the space you need to build and expand your rig according to your requirements.

Efficient Airflow

Two 120mm fans* can be installed on the motherboard side to enhance ventilation and airflow, contributing to a cooler and more stable environment for your components.

*Fans not preinstalled

Color Coordination

Upgrade to 4-pin PWM fans from pre-installed 3-pin fans is supported by integrated universal fan hub, enabling seamless coordination of fan speed and RGB lighting.

Modern Connectivity

The Uniface RGB is equipped with Type-C USB ports for total and seamless connectivity with the latest peripherals and devices.
