PURITY RGB

Pure and Elegant ARGB Mini Tower Case

The Purity RGB is a mini tower case designed with clean lines and equipped with a hinged tempered glass panel. The ARGB LED strip and the ARGB fan give it an amazing and modern look. The Purity RGB is a great PC case that supports for a 240mm radiator, a 305mm graphic card, and a 160mm CPU cooler. It delivers both elegant outlook and excellent value for you.

Clean and Minimalistic Design

The front panel brings you a clean, elegant, and distinctive design. With a pre-installed ARGB LED strip and an ARGB fan, it looks great in any environment!

Full Visibility

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

The hinged tempered glass left panel shows a clear view and helps you to appreciate dazzling lighting effects. The pull ring design also enhances convenience to open the beautiful tempered glass panel.

Great Support for Components

Its advanced support for up to 305mm-long graphics cards, which allows you to enjoy the latest games with smooth framerates.

Excellent Cooling

Purity RGB's compact layout allows you to install five fans, a 240mm water cooling radiator, and a 160mm CPU cooler.
