MERACH MR-S26B4-EU Spinning Bike

The MERACH MR-S26B4-EU Spinning Bike lets you combine intense cardio training with strength exercises. It features a magnetic resistance system, a comfortable seat with 80D foam padding, a dumbbell holder with a capacity of up to 4 kg, two water bottle holders, and a screen capable of wirelessly streaming content from up to two devices. The frame can support a weight of up to approximately 136 kg and is suitable for users between 142 and 188 cm tall.

Comfortable workouts every day

The seat, made of high-density 80D foam, provides better support and can extend your comfortable ride time by up to 10%. Users also have access to two water bottle holders and a smartphone holder for devices up to approximately 10 × 9 cm (3.94 × 3.54 inches), keeping your drink and phone within easy reach at all times.

Cardio and Strength Training in One Place

The MERACH MR-S26B4-EU not only lets you ride a bike but also allows you to diversify your workouts thanks to an integrated dumbbell holder with a maximum load of 4 kg. This allows you to seamlessly combine endurance training with upper-body exercises—this type of workout can increase calorie burn by up to 27%.

The MERACH Interactive App

The device works with the MERACH app, which offers access to workouts designed for people of various fitness levels, making it easy to tailor your exercise plan to your own abilities. You can also compete with other users and check the leaderboards.

Virtual Routes and Games to Motivate Activity

The MERACH app offers a Global Go mode with 3D maps, allowing you to choose routes and earn medals for completing challenges. The FantomFite game is also available, in which users complete tasks, earn achievements, and reach new training goals. These features help keep you motivated and add variety to your workouts.

Large-Screen Display

The display supports wireless screen mirroring from up to two devices simultaneously. It offers a resolution of up to 1920 × 1080 px, with horizontal tilt adjustment up to 180° and vertical tilt up to 60°, allowing you to comfortably watch workouts or use apps.

Magnetic resistance and refined design

The magnetic resistance system ensures smooth operation during workouts. The sturdy construction is designed for users weighing up to approximately 136 kg, and the height range of 142 to 188 cm allows many people to use the bike comfortably. The bike works well in both the living room and a home office, allowing you to work out even while working or studying.
