

Fanttik X10 Pro Cordless Tire Inflator

Model: X10 Pro

Manufacturer: FANTTIK

EAN: 850077828218

Product Code: 1181246

R2,115

Fanttik X10 Pro Cordless Tire Inflator

The Fanttik X10 Pro is a compact cordless air compressor that can inflate a car tire (195/65 R15, 30–33 PSI) in about 35 seconds. Thanks to AccuInflate technology and precise sensors, the device automatically controls the inflation process and stops once the set pressure is reached. The built-in 18.5 Wh battery ensures solid performance—it can inflate up to 16 car tires on a single charge. It's a practical and fast solution for drivers, cyclists, and motorcyclists.

Fast inflation in any situation

The efficient Jet-Inflate system significantly reduces inflation time—to about 35 seconds for an R15 tire (30 to 33 PSI). What's more, the compressor easily handles not only car tires, but also bicycle tires, motorcycle tires, and balls. It's a real time-saver and convenience, especially in emergencies!

Smart control and automatic shut-off

Advanced AccuInflate technology uses precise sensors and a pressure compensation system, ensuring accurate and safe inflation. Once the selected pressure is reached, the device automatically shuts off, eliminating the risk of over-inflation and allowing you to use the compressor without constant monitoring.

Simple operation and quick start

The compressor is designed for maximum convenience. Simply pull out the air hose to start the device, then push it back in to turn it off. Additionally, the intuitive control panel allows you to quickly select the appropriate settings and start inflating without unnecessary complications, while the built-in display shows the current pressure. You also have 5 operating modes at your disposal: Car (for car tires), Motorcycle (for motorcycle tires), Bike (for bicycle tires), Ball (for balls), and Manual (manual mode). The device supports PSI, BAR, and KPA units, allowing you to adjust the settings to your preferences.

Built-in lighting, accessory storage, and a powerful battery

The built-in LED flashlight makes it easier to use the device after dark or in dimly lit areas. You can choose between 2 lighting modes: Normal and SOS. Additionally, the built-in accessory compartment helps you stay organized and keep all necessary items within reach, enhancing user comfort. Meanwhile, the 18.5 Wh battery allows you to inflate up to 16 car tires, 78 motorcycle tires, 78 bicycle tires, or 68 balls on a single charge.

Included

- Fanttik X10 Pro Compressor
- Air hose
- Charging cable
- Needle adapter
- Presta valve adapter
- User manual
