and the bass deeper. By focusing on precision and eliminating unwanted resonances, you will enjoy a more authentic and balanced 3D-surround experience, creating an immersive sound atmosphere. The perfect fusion of advanced technology and intelligent design, all to make your music and games feel more intense than ever.

TOTAL VOLUME CONTROL

Enjoy total control with the MS-H gaming speakers. Featuring a volume control box designed for fast action, the MS-H keeps you in command of your listening experience. Adjust the sound instantly, without taking your eyes off the game. The ideal listening experience is at your fingertips.

UNIVERSAL JACK CONNECTION

Designed with ease of use in mind, the MS-H speakers offer hassle-free connectivity. With USB power and a 3.5mm jack auxiliary audio cable, they ensure quick and easy connection to a variety of devices. Don't waste time on complicated setups; just plug them in, turn them on and get immersed in the game.

RGB FLOW LIGHTING

Enter a dimension where every beat lights up your gaming space. The compact MS-H speakers are an RGB Flow light show that accompanies your victories and your best playlists. Prepare your senses for a gaming experience where music and lighting merge to create a magical atmosphere.
