AUTO-BLEND

Perfect results with a touch of a button

Create smoothies, crush nuts, ice and use the auto-blend function to press the button just once. The blending will last until the perfect result and it will turn off automatically. Enjoy the whole experience!

Made to extract nutrients

The concave-convex shape can prevent sharp cutting edge becoming blunt or tipping. With unique cutting edge and multiple impact design, this blade will improve the takeout of nutrients in most effective way. The fast-turning 6-point blade will make pressure to liquid when rotating, the particles in liquid will flow through the blade hole, during this process and will be impacted then smashed

again. The result? Healthiest blended meal!

Operating at 23.000 rpm

The powerful 1.000 W motor produces 23.000 rpm, which give you truly enough power for the optimal results. Combined with the advanced blade system, it easily blends fruit, vegetables, nuts, grains and even ice into a silky-smooth texture. Efficient and safe.

Hassle-free cleaning

Simply place the jugs and lids sim in the dishwasher and rinse. The easy twist extractor blade rinse with soap and water. All we be cleaned in no time and with no troubles at all.

Always in place

Keeping such a powerful appliance firmly in place requires good architectural form and rubber feet at the bottom to make sure the appliance doesn't move during operation or when removing the jug.

From fruits to vegetables

Blenders have high quality, sharp and strong blades so they can be used for all sorts of fruit, vegetables and meat. With special attachments they will even crush ice and hard food like nuts, or grind coffee beans.
