The Lanberg CAT 6 patch cable is designed to provide a reliable and high-speed connection for your networking needs. Using UTP technology, this cable supports frequencies up to 250 MHz, ensuring optimal data transfer and performance. The stranded construction allows for flexibility, making it a suitable choice for various setups while maintaining durability with its PVC jacket.

Equipped with male RJ-45 connectors on both ends, this cable simplifies connections between devices. Constructed with a 24 AWG American Wire Gauge, it efficiently handles the demands of everyday networking tasks, ensuring devices operate smoothly and efficiently in home, office, or data center environments.
