

LANBERG

Patchcord cat.6

UTP LSZH CU

0.5m black

Fluke passed

Model: PCU6-10CU-0050-BK

Manufacturer: LANBERG

EAN: 5901969434330

Product Code: 1184249

R520

The Lanberg patch cable delivers reliable performance for networking needs. Constructed with UTP technology, this CAT 6 cable supports frequencies up to 250 MHz, ensuring optimal data transmission for various applications. Its low smoke zero halogen (LSZH) jacket material enhances safety while reducing environmental impact. With molded connectors and snagless design, users benefit from durability and ease of installation, making it a choice for both home and office setups. This cable complies with key standards such as EMC, RoHS, and ISO/IEC 11801 Class E, ensuring it meets the required specifications for high-quality networking connections. This patch cable features bare copper conductors for improved conductivity and comes with HDPE insulation that protects against interference. The RJ-45 male connectors on both ends provide versatility for different devices. The cable also boasts a test fluke pass feature, assuring reliability and performance in various networking environments. Its 26 AWG thickness adds to the robustness, making it suitable for long-distance signal transmission without performance degradation.
