The Natec TREVI SLIM Q power bank is designed for efficiency and convenience, enabling users to stay powered on the go. With lithium polymer technology and a capacity of 10,000 mAh, this power bank delivers reliable energy storage for multiple devices. Its ultra-thin profile makes it easy to carry, fitting seamlessly into bags or pockets. The power bank can simultaneously charge up to three devices, ensuring that essential gadgets remain charged throughout the day.

Equipped with versatile charging options, the Natec TREVI SLIM Q allows input via both microUSB and USB-C connectors. With a total output of 20 W and support for fast charge technologies

including Power Delivery and Qualcomm Quick Charge, this power bank is a practical solution for
