The Lenovo ThinkPad X1 2-in-1 Gen 11 offers the versatility of a notebook combined with the convenience of a tablet through its innovative 360° flip design. With a 14-inch LED display boasting a native resolution of 1920 x 1200, this device delivers vibrant visuals and a wide color gamut of 100% sRGB, making it ideal for viewing multimedia content and working on creative projects. Enhanced by Dolby Atmos audio technology and dual-array microphones, it ensures a rich auditory experience whether attending virtual meetings or enjoying entertainment.

Powered by an Intel Core Ultra 5 processor with 8 cores, along with 32 GB of LPDDR5X RAM, the ThinkPad X1 excels in performance, allowing users to multitask efficiently and handle demanding applications with ease. The device is equipped with a 512 GB SSD for quick data access and comes with built-in security features, including a fingerprint reader and a discrete Trusted Platform Module (TPM 2.0). Designed to meet rigorous MIL-STD-810H testing standards, this notebook is built for durability while remaining lightweight and portable, perfect for both professional and personal use.
