The Lenovo ThinkPad P16s Gen 5 is designed for professionals seeking a reliable mobile workstation. Featuring a 16-inch LED IPS display with a native resolution of 1920 x 1200, it delivers vivid visuals and clarity for a variety of tasks, while its anti-glare surface reduces distractions in bright environments. The Core Ultra X9 processor, equipped with 16 cores, ensures responsive

performance for demanding applications. Complementing this is 64 GB of LPDDR5X RAM and a 1 TB

SSD, offering ample storage and swift data access.

Audio quality is enhanced through stereo speakers with Dolby Atmos and a dual-array microphone featuring Dolby Voice for optimal communication during calls. The deployment of advanced security features including a fingerprint reader and an IR camera with Computer Vision-based Human Presence Detection ensures data protection and ease of access with Windows Hello. Built robustly with an aluminum top and meeting MIL-STD-810H standards, this notebook is ideal for mobile professionals who require a durable yet lightweight solution.
