R1,560

Experience immersive gameplay with the Lexip x Tsume NARUTO SHIPPUDEN Kakashi gamepad by PIXMINDS. Designed for comfort and efficiency, this wireless gamepad features an ergonomic design that fits perfectly in your hands, allowing for long gaming sessions without discomfort. The dual vibration motors enhance the experience by providing feedback that brings the action to life. With 4 action buttons and 4 programmable buttons, gamers can customize controls to suit their skills and preferences. Additionally, the gamepad is equipped with a headset port for seamless communication during gameplay.

The Kakashi gamepad utilizes 2.4 GHz wireless technology, ensuring a stable connection with your PC for lag-free performance. Its rechargeable lithium polymer battery provides long-lasting playtime, while the 1 m cable length offers flexibility during use. Elevate gameplay with this device that combines functionality and style.
