R1,225

Experience gaming like never before with the Lexip Advanced Pro Tattoo gamepad, designed to elevate performance and comfort. Featuring a rechargeable battery, gamers can enjoy uninterrupted play with wireless connectivity via 2.4 GHz or Bluetooth, making it versatile for different gaming environments. The controller is equipped with Hall Effect thumbsticks and analog triggers, providing precise movement and responsiveness for all game genres.

With a textured grip and an array of controls including dual analog sticks and programmable buttons, this gamepad is tailored for serious gamers. The built-in audio jack and RGB backlighting add a personal touch, ensuring every gaming session is effective and visually appealing. The Lexip Advanced Pro Tattoo is compatible with PC and both Nintendo Switch models, making it a smart choice for gamers on multiple platforms.
