

LANBERG PPU5- 1048-S Patch Panel 48 port 1U cat. 5e grey

Model: PPU5-1048-S

Manufacturer: LANBERG

EAN: 5901969404036

Product Code: 1186922

R1,168

This particular patch panel is designed to use in main and secondary distribution points of fast telecommunications systems. It is a passive part of structured cabling used for termination and organization of twisted-pair cables within 19" rack cabinets. Use of IDC/LSA connectors, provides fast and easy installation. Stiffened shelf with handles allows easy organization of cables and stability of assembly.
