

UBIQUITI UniFi Cloud Gateway Ultra 1x 1/2.5 GbE RJ45-Port WAN 4x GbE RJ45-Ports LAN /1 Gbps routing IDS/IPS

Model: UCG-ULTRA

Manufacturer: UBIQUITI NETWORKS

EAN: 810084695203

Product Code: 1187150

R3,398

The Ubiquiti Ultra gateway enhances networking efficiency and security, offering a blend of performance and versatility. Designed for both wired and wireless connections, it supports a wide range of data link protocols including 2.5 Gigabit Ethernet, ensuring high-speed Internet access for all connected devices. With an integrated 0.96-inch LCM display, monitoring network status is straightforward and convenient.

Security is a priority with the Ubiquiti Ultra, featuring a suite of security protocols such as OpenVPN, WireGuard, and a full stateful firewall. Whether you're managing a small business network or a demanding home setup, the device's DHCP server, IGMP proxy, and VPN routing capabilities provide

the flexibility and control needed for sophisticated network configurations. Additionally, its cloud-managed nature and SD-WAN support simplify network management, allowing for easy adjustments and monitoring.

Built to last, the Ubiquiti Ultra operates reliably in a wide range of environmental conditions, thanks to its durable polycarbonate enclosure and operational temperature range of -10°C to 40°C. Its energy-efficient design ensures minimal power consumption without sacrificing performance, making it an ideal choice for any setting looking to enhance network security and efficiency.

Product Description: Ubiquiti Ultra - gateway - cloud-managed | Device Type: Gateway | Form Factor: Desktop | Processor: 1 x ARM A53 - 1.5 GHz | RAM: 3 GB | Flash Memory: 16 GB | Data Link Protocol: Ethernet, Fast Ethernet, Gigabit Ethernet, 2.5 Gigabit Ethernet | Performance: IDS/IPS throughput: 1 Gbps | Included Accessories: Power adapter | Power: AC 100-240 V | Dimensions (WxDxH): 14.18 cm x 12.76 cm x 3 cm | Weight: 520 g
