R2,791

Liene Pearl 2x3" Portable Photo Printer (Pink)

The Liene Pearl portable photo printer lets you turn your smartphone photos into durable, self-adhesive prints in seconds—no ink or cables required. The lightweight, pocket-sized design connects to iOS and Android devices via Bluetooth, and Zink® technology ensures clear, water-resistant, and smudge-proof prints. You can edit your photos in advance in the Liene Photo app, and the short printing time means the printer is ready to accompany you at any time. Convenience is complemented by a sliding cover for quick paper replacement, a print head cleaning function, and a starter kit with 50 sheets of Zink paper.

No ink, no mess

Zink® Zero Ink technology eliminates the need for ink, toner, or color ribbons, making printing clean and hassle-free. Special Zink photo paper contains heat-activated dye layers that produce vivid, detailed prints that are water, tear, and smudge resistant. Photos are dry immediately after printing,

ready to touch and share. The built-in print head cleaning function ensures consistently high print quality and sharp details with every photo.

Stick-on photos

Each print is made on self-adhesive photo paper, allowing you to use your photos creatively right away. In addition, the durable adhesive layer ensures stable attachment to various surfaces, such as album covers, shelves, gifts, and home decorations. The photos remain color-intensive and resistant to the passage of time, so your memories retain their quality for years to come. The availability of color or monochrome paper allows you to match the style of your prints to the mood and character of your photos.

Wireless printing freedom

The printer connects directly to your smartphone or tablet via Bluetooth 5.0, without the need for Wi-Fi or cables. It is compatible with iOS and Android devices, so it works with a variety of electronic devices. The process is simple and intuitive—you select a photo on your phone, send it to the printer, and in a moment you receive a finished print. The fast heating mechanism means that a single photo is ready in about 43 seconds.

Editing and printing in one app

The Liene Photo app combines editing and printing functions in one convenient environment. You can crop photos, add filters, frames, and effects, and then send them to print immediately directly from the app. It's a tool for creatively personalizing photos before capturing them on paper, giving each print a unique character. The app is simple and intuitive to use, encouraging you to experiment and create unique keepsakes.

Ready for any moment

The built-in high-performance battery allows you to make up to 30 prints on a single charge, and the USB-C port allows you to conveniently recharge from a power bank, laptop, or mains charger. The printer can also operate while charging, so you don't have to interrupt your photo creation even during longer sessions. The thoughtful design with a sliding cover makes it easy to replace paper
