

Zyxel USGFLEX50HP-EU0101F hardware firewall 0.35 Gbit/s

Model: USGFLEX50HP-EU0101F

Manufacturer: ZYXEL

EAN: 4718937638291

Product Code: 1219487

R10,653

Nebula Together

The USG FLEX 50 is now part of the Nebula cloud management family with the same easy management interface and streamlined configuration & updates. The network functions and management services are pushed to the cloud and are optimized for managing distributed networks. The USG FLEX 50 helps customers to comply with regulations by offering log archiving service without the need for additional hardware and software installation.

Robust VPN Connections

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

The USG FLEX 50 provides comprehensive VPN connection types including IKEv2, SSL & IPsec VPN. All offer customers secured remote connections. IPsec VPN hardware engine for high-efficiency VPN tunnel. VPN load balance/failover with IKEv2 ensures strong VPN reliability and security for your business.

Comprehensive Content Filter Service

The USG FLEX 50 delivers enhanced content filtering functionality and security through its powerful combination of both reputation and category-based filtering. A newly added DNS content filter offers a better approach to inspect web access, particularly when the website is deploying ESNI (Encrypted Server Name Indication) where the traditional URL filtering is not applicable to the destination domain.

Device Insight

Device Insights give you more visibility of your networks including wired, wireless, BYOD, and IoT devices. You can create access policy with device contextual such as OS version or device category to enforce network segmentation. This reduces the attack surface and prevents threats from spreading. This also helps SMB(s) reduce time spent on investigation.

Analytics Report and Enhanced Insights

SecuReporter premium offers comprehensive protection and analytics. Utilize SecuReporter premium for a suite of advanced analysis and reporting tools including Sandboxing, Threat Website Analytics, and Threat IP Analytics. Users can also run customized report on-demand or on a regular schedule such as daily, weekly, and monthly.

Optional Security Pack

The USG FLEX 50 provides an indispensable feature set to perfectly fit small business requirements as well as to gain essential security services needed, including Web Filtering, SecuReporter Premium, and Security Profile Sync, to protect against cyberattacks. In addition, Nebula Control Center (NCC) also offers multiple subscription options to meet customers’ needs.
