Introducing Magnifica Plus, your new personal barista. Use the touch screen, full colour display to choose your coffee from one of 13, or programme your order and create fully personalised user profiles, so you can have your bespoke coffee order at the touch of a button. Perfect coffee starts with a perfect espresso and perfect espresso starts with freshly ground beans. With 13 grind sizes, Magnifica Plus intuitively chooses the right one for your chosen beans to ensure the perfect extraction and best taste every time. Espresso is the foundation, but what about the rest? The new improved LatteCrema system ensures perfectly textured milk every time. Like just a little froth on your cappuccino? Or velvety milk foam so dense you can stand your spoon up in it? Magnifica Plus' functionality gives you all the control you need to make it just how you like it. And, once you've made your perfect coffee, the milk carafe cleans itself and you can pop the other components in the dishwasher, making maintaining your machine as easy as it is to use.
