

ASUS Hyper M.2 x16 Gen 4 interface cards/adapters Internal

Model: 90MC08A0-M0EAY0

Manufacturer: ASUS

EAN: 4718017624923

Product Code: 1222531

R1,921

ASUS Hyper M.2 x16 Gen 4 Card (PCIe 4.0/3.0) supports four NVMe M.2 (2242/2260/2280/22110) devices up to 256 Gbps for AMD TRX40/X570 PCIe 4.0 NVMe RAID and Intel platform RAID-on-CPU functions

RAID on CPU

The ASUS Hyper M.2 x16 Gen 4 Card is compatible with the Intel X299, Z390, Z370 and future platforms' RAID-on-CPU function, and supports PCIe 4.0 NVMe RAID on the AMD TRX40 and X570 platforms. Unused CPU PCIe lanes can be assigned to storage, allowing you to create a bootable RAID array with up to four M.2 SSDs.

One card, 8X the bandwidth

The ASUS Hyper M.2 x16 Gen 4 Card uses PCIe 4.0, which doubles the bandwidth per lane compared

to PCIe 3.0. With four M.2 slots, it offers up to 256 Gbps of bandwidth per card, 8X the bandwidth of a single PCIe 3.0 drive.

Design for unthrottled transfer speed

The ASUS Hyper M.2 x16 Gen 4 Card has four M.2 slots — supporting both PCIe 3.0 and 4.0 — that allow you to expand your system with high-performance SSD storage. Designed for the latest generation of NVMe drives, the card features an upgraded power supply that provides up to 14W of power per drive, as well as a large heatsink and active fan to ensure that drives stay cool for optimum performance.
