

R-Go Tools Ergonomic keyboard R-Go Split Break v2 with break software, ergonomic split keyboard, QWERTY (US), Wired, black

Model: RGOSP-USWIBL

Manufacturer: R-GO TOOLS

EAN: 8719274490753

Product Code: 1222538

R2,625

The R-Go Split Break keyboard is an ergonomically split keyboard with integrated break software. This keyboard encourages you to take regular breaks. This keeps your blood circulation flowing, prevents strain and keeps you fit during your working day.The keyboard consists of two separate parts that can be placed in any desired configuration. This split design prevents your wrists from bending while typing. Typing with straight wrists reduces muscle tension and prevents pinching of

tendons and blood vessels. The built-in magnet allows you to convert the two separate parts of the keyboard into a compact keyboard with a single movement. The compact size ensures that the mouse is always within reach. The light keystrokes minimise muscle tension while typing. The keyboard is flat, keeping your hands and wrists flat and relaxed while typing.The LED colour signals in the keyboard indicate how healthy you are working and when it is time for a break. While typing, the light changes colour, like a traffic light. Green means “good going”, orange means it's time for a break, and red means you've been working too long. These subtle colour signals provide you with simple and positive feedback on your break behaviour. This product works in conjunction with the R-Go Break Software, which won the Benelux Office Product Award 2021.
