

Mars Gaming MT0 PC Thermal Paste 1g 6W Temperature 30- 280° Maximum Security

Model: MT0

Manufacturer: MARS GAMING

EAN: 4713105961119

Product Code: 1231127

R924

Compact but powerful, you won't waste product with MT0 thermal paste. It supports temperatures of up to 280°C to offer you safety on the most powerful computers.

Compact size

For occasional use, the compact size of the MT0 is ideal for avoiding wasted product. With 1 gram of thermal paste, you can get your computer up to speed and enjoy your games without worries.

High temperature support

MT0 thermal paste is a high-performance heat dissipation paste that maintains a stable temperature under any load thanks to its 6W thermal conductivity. With a temperature support of up to 280°C, MT0 can withstand the highest temperatures.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Easy to apply

MT0 guarantees a perfect filling between the heatsink and the processor, thanks to its applicator and its lower viscosity, which facilitates its distribution. The low evaporation and support of extreme temperatures of MT0 make this thermal paste last longer.

Maximum security

The nanotechnological material used to make MT0 paste is not electrically conductive, which means it offers maximum safety.
