

VEHICLE RECORDER DRIVEPRO 550/128GB TS- DP550B-128G TRANSCEND

Model: TS-DP550B-128G

Manufacturer: TRANSCEND

EAN: 760557865520

Product Code: 1235065

R4,801

DrivePro 550

Transcend's DrivePro 550 is a dual lens dash camera that provides both drivers and passengers with optimum protection. The front lens features a high-sensitivity image sensor and wide field of view for capturing crystal-clear 2K QHD 1440P videos at 30fps, while the 180° rotatable rear lens is equipped with four Infrared LEDs, allowing sharp in-car video recordings at night and in low light conditions.

Dual lens, double the safety

With its dual lens, the DrivePro 550 provides both drivers and passengers with optimum protection. It comes bundled with a Transcend microSD memory card built of high-quality NAND flash and tested under harsh environmental conditions.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Vision in the dark

The DrivePro 550's front lens is equipped with a high-sensitivity image sensor to capture high-resolution images in superb, rich color even in low light. Supporting 1440P 2K QHD recording at 30fps, the front lens offers smooth footage as well as crisp still images.

Rear lens with Infrared LEDs

The rear-lens camera can record in 1080P Full HD at 30fps. It has four infrared LEDs that will automatically turn on in dim light. This greatly improves recording quality inside the cabin, even in pitch-black darkness.

Note: Footage recorded with infrared LEDs will be in grayscale.

Work safer behind the wheel

The DrivePro 550 also safeguards those who work behind the wheel for a living. Suitable for commercial for-hire transportation, shared transport, and charter services, the DrivePro 550 protects occupational drivers and helps ensure standard operating procedures are followed by drivers working in the taxi, express delivery, truck, and bus industries.

Wi-Fi connectivity

The DrivePro 550 features Wi-Fi connectivity that, through the exclusive DrivePro App, allows real-time footage playback and download. This means ease of access to video evidence for reporting incidents to law enforcement and insurance companies without the need to remove the device's memory card.

GPS/GLONASS receiver

The DrivePro 550 has a built-in GPS/GLONASS receiver for geotagging videos and images. With the exclusive DrivePro Toolbox, users can view routes traveled on a map display during video playback, making it easy to establish when and where an event occurred.

Built-in battery

In the event of a power outage, the built-in Li-Polymer battery can temporarily supply power to the DrivePro dashcam until the files being recorded are safely stored, so to prevent losing crucial images due to file damage.

Value-added software

Transcend offers free software, DrivePro Toolbox. Featuring video sorting function, smooth video playback, videos editing, screenshot, and map view for models with built-in GPS/GLONASS receivers, it creates more convenient experience for DrivePro users!

Transcend's DrivePro App is designed specifically for use with DrivePro dashcam models featuring Wi-Fi connectivity. It allows streaming and downloading of recorded files to mobile devices quickly and conveniently.

Optional Hardware Power Cable (micro-USB)

Transcend's hardwire power cable allows users to wire their DrivePro dashcams directly into their vehicle's fuse box. Transcend's hardwire power cable has built-in power protection circuitry to prevent damage to either your vehicle or your DrivePro dashcam in the case of a short circuit or power surge.

Summary: Transcend DrivePro 550. HD type: 2K Ultra HD, Main camera resolution: 2560 x 1440 pixels, Main camera viewing angle: 140°. Display: TFT, Display diagonal: 6.1 cm (2.4"). Compatible memory cards: MicroSD (TransFlash), Maximum memory card size: 1 TB. Interface type: Micro-USB, Wi-Fi standards: Wi-Fi 4 (802.11n).
