EAN: 6970135036530

Product Code: 1237280

R5,719

Discover the ultimate blend of power with the DEEBOT mini—compact, stylish, and designed for modern living. With a slim 28.6cm width, it effortlessly glides through narrow spaces, tackling every corner with a cleaning coverage up to 89%. The Mini OMNI Station, with a height of only 38.5cm, is the smallest ever, delivering powerful features like Hot Air Drying, Auto-Empty, and Intelligent Deep Mopping while blending seamlessly into modern spaces. Plus, with vibrant, multi-color water tanks to suit young, stylish homes, it's as fashionable as it is functional. Enjoy hushed operation at 55dB while cleaning and a discreet 70dB during Auto-Empty, keeping your home peaceful and quiet.

Ultra Compact DEEBOT

The DEEBOT mini, with a width of just 28.6cm, glides effortlessly through narrow spaces, tackling tight areas with ease. Equipped with advanced edge distance sensors, LDS radar, and front-facing lasers, it expertly maps the best path for a thorough clean while avoiding obstacles. With its high cleaning coverage of up to 89%, the DEEBOT mini ensures no spot is missed, even in space-conscious apartments. Compared to traditional models, it reduces blind spots and delivers a deeper, more efficient clean, maximizing coverage in every room.

The Smallest OMNI Station

The mini OMNI Station, with a smallest size of just 38.5cm-high, combines compact design with powerful performance, seamlessly fitting into any home while elevating your cleaning experience. Despite its smallest size, it offers premium features like 45°C Hot Air Drying, keeping your mop and base plate dry, bacteria-free, and odorless with a high-performance fan. Smart Auto-Empty handles dust collection with ease, while Intelligent Deep Mopping ensures a thorough clean without the hassle. One-Tap Self Cleaning simplifies maintenance, and Full-Chain Antibacterial protection guarantees a healthier, more hygienic home. It's not just about cleaning—it's about creating a cleaner, more efficient living space with effortless convenience.

Superior Noise Control

The DEEBOT mini combines robust cleaning power with hushed operation, ideal for quiet living. With considerable noise-reduction features like brushless motors, a worm gear transmission, and a sound-dampening structure, it operates at a serene 55dB, ensuring that your day flows uninterrupted. Whether working, relaxing, or with family, DEEBOT mini provides a hassle-free clean without the noise. Even the OMNI Station's Auto-Empty function, at 70dB, maintains a calm atmosphere while effortlessly handling dust collection.

Vibrant Color Palette

The DEEBOT mini combines playful elegance with a sleek, capsule-inspired design, featuring a multi-color water tank in vibrant hues like blue, violet, orange, green, red, and black. These options let you customize your cleaning companion to match your style. The transparent, combined tank streamlines maintenance and allows easy water level checks without removal, while the smooth G3 curvature gives it a modern, airy look—making it more than just a vacuum, but a stylish addition to your space.

The Ultimate Combination of Mopping and Suction

The DEEBOT mini redefines home cleaning with the OZMO Turbo 2.0 Rotating Mopping System, delivering commercial-grade scrubbing power through dual high-pressure plates. Its advanced five-stage process dissolves and lifts stubborn dirt, ensuring an effortlessly polished finish. Paired with a high-performance motor and 9000Pa suction, it maximizes deep-cleaning efficiency, effortlessly tackling dust, debris, and embedded dirt—even on carpets. With power that speaks for itself, the DEEBOT mini transforms everyday cleaning into a premium experience.

ZeroTangle 2.0 Anti-Tangle Technology

The DEEBOT mini features ZeroTangle 2.0 with triple V-shaped structures, which uses a 45° V-shaped anti-tangle bristle design to lift hair away, a V-shaped spiral brush to gather hair centrally, and V-shaped comb array teeth to dynamically untangle hair, ensuring efficient suction and hassle-free maintenance while maintaining a high level of floor cleanliness.

Agile Navigation

The DEEBOT mini offers customers an intelligent cleaning experience from day one, navigating their homes with unmatched precision and efficiency. Powered by TrueMapping 2.0 Technology, it maps up to 100 square meters in just 6 minutes, effortlessly navigating even the most complex spaces. With advanced stair detection and anti-drop sensors, the DEEBOT mini ensures a safe and reliable clean, automatically avoiding potential falls for worry-free operation throughout your home.

Dual-fusion Obstacle Avoidance

The DEEBOT mini combines LDS LiDAR and Line Laser Technology for Dual-fusion Obstacle Avoidance, ensuring precise navigation even in strong light or low-light environments. Powered by advanced algorithms, it delivers millimeter-level obstacle detection and real-time distance measurement, enabling smarter path planning with enhanced accuracy and coverage compared to traditional methods.

Uninterrupted Clean With No Manual Intervention

The DEEBOT mini delivers up to 150 minutes of uninterrupted cleaning with its powerful 3200mAh battery. It intelligently manages charging to quickly resume where it left off. With high-traction wheels and strong motors, it effortlessly crosses thresholds up to 17mm. The DEEBOT mini adapts seamlessly to different height changes, ensuring a smooth, hands-free clean.

Carefully Crafted Body Handle

Designed for ultimate convenience, the DEEBOT mini's lightweight build and ergonomic handle make carrying it up and down stairs effortless. Whether you're moving it between rooms or navigating different floors, the compact size and thoughtful design remove the hassle, providing customers with a seamless, worry-free cleaning experience.

Seamless Mobile Control

The DEEBOT mini offers seamless mobile control and customization, enabling users to effortlessly
