

Netatmo Smart Rain Gauge

Model: NRG

Manufacturer: NETATMO

EAN: 3700730500210

Product Code: 1242494

R2,181

Measure the rain via your Smart Weather Station

The perfect addition to your Weather Station, the Netatmo Smart Rain Gauge sends rainfall data directly to your smartphone. Check rainfall at home in millimetres per hour remotely and in real time. The highly accurate Rain Gauge measures rain intensity as well as rainfall over the last hour and since midnight.

Use your data history to analyze rainfall over time

Access data gathered by your Rain Gauge in the app. View your data history to track changes in rainfall this month and over the last year or to see how much fell at home while you were away. You're going to love it when it rains!

Receive an alert on your smartphone as soon as it starts to rain

Did you leave your washing out to dry or a window open? Receive an alert as soon as it starts to rain. You can also customize your notifications to receive an alert only once a certain amount of rain has fallen.

Make life easier by taking into account the rain

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Learn all about the rain with the Netatmo Rain Gauge. Use it to plan ahead: put your houseplants in the garden for a natural watering, take an umbrella when you go out, or plan your next bicycle ride.

It's easy to set up your Rain Gauge

Simply fix your Netatmo Smart Rain Gauge outdoors, up to 100 metres from your Weather Station's indoor module. Its high-quality, UV-resistant plastic coating withstands sunshine, hail and strong winds.
