SJCAM C100PRO Action Camera

The SJCAM C100PRO lets you capture events from a first-person perspective without having to hold the camera in your hand. It weighs just 32 g and has compact dimensions of 60 × 20 × 26 mm, yet it can record in up to 4K resolution at 30 fps and take photos at up to 20 MP. The built-in magnetic mount makes it easy to capture different perspectives, the 730 mAh battery provides up to 170 minutes of recording time, and 5 GHz Wi-Fi streamlines file transfers and operation via the SJCAM X app. When paired with the waterproof case, the camera can be used underwater at depths of up to 30 m.

Record from your own perspective

True Hands-Free POV mode lets you capture exactly what's happening right in front of you, leaving both hands free. It's perfect for activities like biking, vlogging, or doing various tasks where holding a traditional camera would be inconvenient. The C100PRO weighs only 32 g and is about the size of a thumb, so you can clip it to your clothes, hat, or backpack without adding unnecessary weight. The

one-touch recording feature lets you quickly start capturing moments without having to navigate through complex menus.

Detailed 4K videos and photos up to 20 MP

Its small size doesn't mean you have to sacrifice image quality. The camera records in 4K (3840 × 2160) at 30 fps, and in 2K (2560 × 1440) and Full HD (1920 × 1080), it also offers a frame rate of 60 fps. It also supports a vertical 2K (1440 × 2560) or Full HD (1088 × 1920) format at 30 fps, allowing you to capture footage in a 9:16 aspect ratio. It also offers photos with a resolution of up to 20 MP (5888 × 3312), a lens with a 120° field of view and an f/2.5 aperture, as well as modes such as Timelapse, Slow Motion, burst mode, self-timer, and the ability to take photos while recording.

Magnetic mount and water resistance up to 30 m

The built-in magnet allows you to quickly attach the C100PRO to metal surfaces or compatible accessories, making it easy to experiment with different shooting perspectives. You can also wear the camera as a lanyard to conveniently capture POV footage hands-free. The included waterproof case allows you to use the device at depths of up to 30 m, so you can record while surfing or snorkeling, as well as in rainy conditions.

Up to 170 Minutes of Recording and Fast 5 GHz Wi-Fi

The 730 mAh battery allows for up to 170 minutes of recording on a single charge, so the C100PRO can accompany you during a longer workout, commute, or trip. 5 GHz Wi-Fi connectivity enables fast file transfers and real-time live view via the SJCAM X app. From within the app, you can also adjust settings, download recordings, and remotely control the camera. Footage is saved to a microSD card with a capacity of up to 512 GB, which must be purchased separately.

An action camera, webcam, and dashcam all in one

The C100PRO offers a range of modes that allow it to serve multiple functions. When connected to a computer, Webcam mode lets you use the camera for video calls, online classes, or live streams, while DashCam Mode allows you to use it in your car—when connected to a car charger, it can automatically start recording and save footage in a loop. Loop recording for 4K at 30 fps can operate

in 1-minute intervals, while for other resolutions, settings of 3, 5, or 10 minutes are available. The camera also supports vertical recording, 2x and 4x slow motion, and exposure adjustment within a range of ± 2 EV.

Settings Adapted to Conditions

The SJCAM C100PRO allows you to adjust image settings to suit various shooting situations. The ISO range is 100–3200, and white balance can be set to Auto or one of the following modes: Daylight, Cloudy, Tungsten, Fluorescent, and Diving. Videos are saved in MP4 format, while photos are saved in JPG. Charging is done via a USB-C port, and the compact dimensions of 60 × 20 × 26 mm make the camera easy to carry with you during everyday activities and trips.

Included in the set

- SJCAM C100PRO camera
- Waterproof case
- Mounting frame / clip-on case
- Mounting frame with grip
- Magnetic neck strap
- Wrist strap / lanyard
- Flat mounting bracket
- Curved mounting bracket (e.g., for a helmet)
- USB cable for charging and data transfer
- Mounting screw
- 2 pieces of spare 3M double-sided tape
