EAN: 6972476160066

Product Code: 1242583

R3,948

SJCAM A10 Camera

The SJCAM A10 lets you record detailed video footage at resolutions up to 1296P at 30 fps, making it ideal for work, security applications, and various activities. The wide-angle lens, with a 140° field of view and an f/2.5 aperture, captures a broad view of the surroundings, while the night mode with infrared LEDs allows for recording even in complete darkness. It also features a 2-inch touchscreen, 2.4 GHz Wi-Fi, and a 2650 mAh battery providing up to 450 minutes of runtime when recording in 1080p at 30 fps. The IP65-rated design allows you to use the camera even in more demanding conditions.

Detailed Videos and Photos

The camera records at resolutions up to 1296P at 30 fps, allowing you to capture important details such as faces, license plates, and small objects. 1080P, 720P, and WVGA modes at 30 fps are also available, allowing you to adjust the recording settings to your current needs. The lens, with a 140°

field of view, covers a wide area of the scene, and its aperture is f/2.5. The SJCAM A10 also allows you to take photos at resolutions of 12 MP, 10 MP, 8 MP, 5 MP, or 3 MP.

Touchscreen and Night Mode

The built-in 2" touchscreen lets you preview your footage and provides easy access to key functions. Using tap, swipe, or pinch gestures, you can switch modes, change settings, and start and stop recording. The camera is also equipped with night vision using infrared LEDs, which allows you to capture clear, black-and-white images even in complete darkness. This means it can continue recording even when there isn't enough light to capture a standard image.

Modes Tailored to the Situation

The SJCAM A10 offers several video modes that allow you to customize the camera's behavior for a specific application. In addition to standard recording, it features time-lapse, dashcam, loop recording, pre-recording, delayed recording, and motion detection modes. In loop mode, you can select a recording length of 3, 5, or 10 minutes, or disable this feature entirely. Photography options include standard photo capture, interval photos, and burst mode.

Wi-Fi and up to 128 GB of storage

The camera supports 2.4 GHz Wi-Fi (802.11b/g/n) and is compatible with the dedicated SJCAM remote control. Videos are saved in MP4 format with the H.264 codec, and photos in JPG format. Media can be stored on a microSD card with a capacity of up to 128 GB, while the USB-C port allows for a wired connection. The SJCAM A10 is also equipped with two microphones and one speaker.

Long Battery Life and IP65 Rating

The lithium-ion battery, with a capacity of 2650 mAh, a voltage of 3.8 V, and an energy capacity of 10.07 Wh, enables extended recording. When recording in 1080p at 30 fps, the battery life can reach up to 450 minutes. The IP65 rating protects the device from dust and water, allowing the camera to operate even in more demanding conditions. The operating temperature range is from -10°C to 40°C, and with dimensions of 83 × 57 × 38 mm, the device weighs 137 g.
