Freewell Osmo Pocket 4P Bright Day Filter Set (4 pcs.)

The Freewell Bright Day filter set was designed for DJI Osmo Pocket 4P users who want to capture professional-looking footage even in very bright conditions. The set includes four hybrid filters (ND8/PL, ND16/PL, ND32/PL, and ND64/PL) that allow you to precisely control the amount of light reaching the lens. The combination of an ND filter and a polarizing filter (PL) helps simultaneously reduce overexposure and improve image quality, ensuring that your footage retains a natural look and smooth motion.

More vivid colors and fewer unwanted reflections

The hybrid filter design effectively reduces reflections on the surface of water, glass, or other shiny objects, while increasing contrast and color saturation. As a result, landscapes, cityscapes, and
