

Dreame H13 Pro Stick vacuum Battery Dry&wet Bagless 300 W Black 4.9 Ah

Model: HHR27C

Manufacturer: DREAME TECHNOLOGY

EAN: 6976233679167

Product Code: 1244021

R11,454

140°F1 Brush Wash

Keeps Your Home Free from Oil Stains

An advanced brush that self-cleans with 140°F hot water. Simply put the vacuum back into the smart charging base for a "hot bath" after use. Gone are the days of soiled hands from having to scrape mess off the brush or mop yourself.

30min2 140°F Hot Air Drying

Too Hot for Mold and Odors

After the heated wash, the brush spins centrifugally at turbo speeds for 30 minutes - sloughing off excess water and then finishing with hot air dry cycles. This one-two punch helps prevent odors and bacterial breeding, making the brush exceptionally resistant to winter weather and rainy seasons and, thus, more durable.

Dual Rotation Self-Cleaning

Brush Spins Clockwise and in Reverse Direction to Detangle

- Clockwise rolling

A special resilient scraper fits closely to the brush, squeezing out water and scraping away dirt.

- Reverse rolling

Intelligently clears hair and directs it into the used water tank.

Edge-to-Edge Cleaning on Both Sides

Keeps Hidden Dirt on Edge

This new and advanced edge-to-edge design reaches into challenging areas such as corners and along baseboards to pick up spills and remove stains. This also extends the brush to each end of the wet and dry vacuum, so each end can reach close to the walls and effectively cleans corners.

Powerful Vacuuming, Versatile Cleaning

Huge Mess? Don't Stress

H13 Pro's massive 18,000Pa³ suction devours mess without missing a step. The brush spins at 520RPM⁴, fueled by a 13,000RPM⁵ proprietary motor, promising you a more thorough clean that leaves nearly zero streaks.

40min⁶ Seamless Cleaning

Larger Tanks, Longer Battery Life, Fewer Interruptions

Powered by a 6 x 4900mAh battery pack, H13 Pro can work for 40 minutes straight, with fewer interruptions or the need for frequent refills and battery recharging. Cover more ground in one go, and conveniently clean up to 300m² spaces⁶.

Distinct Resilient Scraper

Helps You Stay Away from Entanglement

Troubled by hair entanglement? Consider it solved. The ingenious floating resilient scraper tightly hugs the brush, extracting hair and fur while squeezing out dirt for a sparkling clean. Meanwhile, the comb tooth design allows the scraper to delve deep into the brush to prevent hair tangles.

GlideWheel™ Power System

Moves Back and Forth Smoothly and Effortlessly

itworkup.co.za | sales@itworkup.co.za | +27 (11)541-9950

Despite its 5.6kg body, H13 Pro is remarkably easy to maneuver. Unlike traditional unidirectional vacuum cleaners that struggle during backward pulls, H13 Pro's innovative GlideWheel™ power system boasts two rear motors that enable smooth back-and-forth motion.

Detects, Adjusts, Cleans Better

H13 Pro's smart sensor adapts suction power to handle various types of dirt effectively, so the suitable cleaning power is used for better results, without manual adjustments.

Illuminates Hidden Stains, Day or Night

Sneaky Stains Have Nowhere to Hide

Too dim to spot hidden mess? H13 Pro's sleek LED brush head illuminates dark corners of your home - dirt and stains are to be exposed. No more restrictions by time or place, no lurking spot stands a chance.
