Manufacturer: ROJECO

EAN: 6975116295432

Product Code: 1246762

R1,715

Rojeco 4.5L Automatic Pet Feeder WiFi Version Dou

With the ROJECO smart food dispenser you will take care of two pets from anywhere. With the app, you can schedule feeding times, monitor food intake, and even share the operation of the device with household members. The remote feeding function provides peace of mind while you're away - your pets will always get their meal on time.

Freshness of food

A triple security system makes sure the food stays fresh at all times. A sealed lid, a moisture absorber and a lockable outlet prevent air and moisture from entering. As a result, each serving tastes like it came from a newly opened package - healthier and tastier for pets.

Food always on time

An integrated anti-jamming system with soft blades and a reliable rotor ensures smooth portioning. The dispenser easily handles dry food from 2 to 15 mm in diameter, including freeze-dried food, mixed food, traditional dry food and air-dried food. It's perfect for caretakers of several pets with different dietary preferences.

More than just a dispenser

The device allows you to record a 10-second voice message. This allows your cats to feel your presence, even when you are away from home. In addition, the manual feeding function allows you to quickly reward your pets with a single click.

Hassle-free cleaning

The dispenser is designed for easy disassembly. All parts that come into contact with the food - the tank, rotor and bowls - can be removed and washed. This will ensure hygienic conditions for your pets at every meal.

Long-term support in care

It comes with a cable with a bite guard, and the 304 stainless steel bowl prevents hair discoloration. With two power modes - mains and battery - the device works reliably even in the event of a power outage. The capacity of 4.5 liters is enough for about 15 days for two cats.

Included:

- Device base
- Tank cover
- Food tank
- Stainless steel bowl x2
- Bowl stand x2
- Moisture absorber
- USB cable (Universal Serial Bus, a universal connector for data transfer and power supply)
