MCV-ONE Gaming Case

The MCV-ONE is a compact ATX case with impressive internal capacity, combining cutting-edge design, high thermal performance, and premium aesthetics to take your setup to the next level. Featuring dual seamless tempered glass panels, an integrated 120mm FRGB fan, dual-chamber structure, and support for liquid cooling up to 240mm, it offers everything you need to build a powerful and visually striking system in a compact format.

Panoramic Tempered Glass View

Show off your build from every angle with the MCV-ONE's dual continuous tempered glass panels on the front and side. Its frameless design enhances lighting and internal components, making your rig the centerpiece of any gaming setup.

Superior Thermal Performance

Keep your components cool with an advanced and stylish cooling system. The MCV-ONE comes equipped with a 120mm FRGB rear fan for consistent airflow and immersive RGB lighting. It supports

liquid cooling up to 240mm*, CPU coolers up to 165mm in height, and allows for the installation of up to 7 fans—ensuring optimal ventilation and performance in any scenario.

*Note: Max dimensions 305x120x52mm

Optimized Dual-Chamber Layout

Designed with a dual-chamber internal structure, the MCV-ONE separates the PSU and storage drives from the main components. This layout enhances airflow, improves cable management, and ensures a clean, professional-looking build.

Compact and Functional Design

Engineered to save space without limiting your setup, the MCV-ONE combines a compact form factor with impressive internal capacity. It supports ATX, microATX, and mini-ITX motherboards, and fits graphics cards up to 334 mm in length. An included removable adapter piece creates extra clearance when installing mini-ITX boards, maximizing internal space. The top magnetic dust filter ensures easy maintenance and keeps your setup clean and running at peak performance.
