The monitor features a 14-inch touch-enabled IPS LED panel that displays images at a resolution of 1920 × 1080 Full HD+. The wide 178° viewing angle allows for comfortable use of the screen regardless of your position, while the high image quality and HDR support ensure natural colors and good readability of the displayed content. Support for 10 simultaneous touch points makes navigation easier and enhances the user experience when working with compatible devices.

Versatile compatibility with many devices

The monitor can be connected to smartphones, laptops, desktop computers, mini PCs, Nintendo Switch, PS3, PS4, and PS5 consoles, Xbox One, cameras, TVs with Android TV Boxes, Raspberry Pi, and other devices equipped with a USB-C or HDMI port. It works well as an additional screen for work, a display for watching movies, gaming, designing, and many other uses.

Seamless Integration with Smartphones and Laptops

The USB-C connection allows you to display content from compatible smartphones on a larger screen. The monitor is compatible with Hammer TNT Workstation, Huawei EMUI PC, and Samsung DeX modes, allowing your phone to function as a mobile workstation. When connected to a laptop, the monitor expands your workspace, making it easier to work with multiple windows simultaneously and increasing the convenience of performing everyday tasks.

Ideal for gaming consoles and multimedia

The monitor supports connections to Nintendo Switch, PS4, PS5, and Xbox One consoles, providing a comfortable gaming experience on a 14-inch screen. With Full HD+ resolution, a 60 Hz refresh rate, and HDR support, the device also performs well when watching movies, live streams, and other multimedia content.

Thoughtful design and a wide range of ports

Measuring 32 × 20.3 × 1.3 cm and weighing 0.65 kg, the monitor is easy to carry and use in various locations. The device is equipped with two USB-C ports, a Mini HDMI port, a 3.5 mm headphone jack, and a built-in stand for comfortable screen positioning. The manufacturer recommends using a USB-C Power Delivery adapter with a power output of at least 30 W.
