ANMITE A140W05T 14" Portable Monitor

The ANMITE A140W05T portable monitor with a 14-inch IPS screen is a versatile solution for people who need extra workspace or a larger display while on the go. With 1200P resolution, 350 nits of brightness, and 100% sRGB color coverage, it delivers a crisp image, natural colors, and a comfortable viewing experience. The monitor is equipped with a capacitive touchscreen supporting 10-point touch, and thanks to a single USB-C connection, you can instantly enable extended desktop or screen mirroring mode. Its slim design and weight of just 0.6 kg mean you can comfortably take it with you almost anywhere.

Clear image and accurate color reproduction

The IPS panel ensures high-quality image display and comfort during everyday use. The 1200P resolution provides good detail, and 100% sRGB color space coverage lets you enjoy natural and vibrant colors. A brightness of 350 nits further improves screen readability, making the monitor suitable for a variety of working conditions. VESA compatibility enhances its functionality and versatility.

Intuitive Touchscreen

The capacitive touchscreen supports up to 10 touch points simultaneously, ensuring smooth and precise operation. The sensitive panel makes it easy to perform everyday tasks such as navigating the system, scrolling through documents, or typing. Thanks to its responsive performance, using the monitor is comfortable and natural both at work and in everyday use.

Quick connection and broad compatibility

The monitor connects via a single USB-C cable, which simultaneously transmits both video and power. Simply connect a compatible device to instantly activate extended display mode, second screen mode, or mirroring mode. The model also works with computers equipped with an HDMI port using a Mini HDMI to HDMI cable and the appropriate power supply, making it easy to adapt to various hardware configurations.

A Larger Screen for Your Smartphone and Flexible Power Options

The ANMITE A140W05T lets you conveniently use your smartphone on a large screen. When connected to a phone with a fully functional USB-C port, the monitor automatically switches to PC mode. It also supports Huawei EMUI PC and Samsung DeX modes, allowing you to use an external keyboard and mouse. The device supports reverse charging for your phone and various USB power delivery methods, including from a power bank or USB power adapter, and can also supply power to other devices, such as phones or laptops.

Lightweight design for use anywhere

The slim chassis and light weight of just 0.6 kg make it easy to carry the monitor and use it wherever it's needed. The manufacturer recommends using a PD power adapter with a minimum output of 30
