R5,340

ANMITE A238W05 23.8" Portable Monitor

The ANMITE A238W05 portable monitor features a 23.8-inch IPS screen, provides a large workspace and smooth visuals at Full HD resolution (1920 × 1080) and a refresh rate of 120 Hz. The panel offers 100% sRGB color space coverage, 300 cd/m² brightness, and wide 178° viewing angles, ensuring that displayed content retains vivid colors and high readability from various perspectives. Its slim design, featuring a built-in adjustable stand, dual speakers, and a wide range of ports, makes this monitor ideal for work, design, watching movies, and gaming—both at home and on the go.

A large screen and smooth visuals in any situation

The 23.8-inch IPS LED panel with narrow bezels provides a comfortable space for work and entertainment. Full HD resolution combined with a 120 Hz refresh rate guarantees a clear, smooth

picture when viewing documents, watching movies, and playing fast-paced games. 100% sRGB color gamut coverage lets you enjoy natural color reproduction, while 300 cd/m² brightness and 178° viewing angles ensure good visibility in various conditions and from almost any angle.

Wide compatibility with many devices

The monitor can be connected to laptops, computers, smartphones, and the Nintendo Switch and PlayStation 5 consoles. It features a Mini HDMI port, a USB-C port for data transfer, a USB-C port for power, and a 3.5 mm audio jack. Screen extension and split-screen modes are also supported, and compatibility with Huawei EMUI PC and Samsung DeX modes allows for convenient smartphone use with a keyboard and mouse. The monitor also supports reverse charging for compatible devices.

Portable Design and Ease of Use

The ANMITE A238W05 is made of ABS plastic and features a slim design, measuring just 0.6 cm at its thinnest point and 1.3 cm at the bottom of the housing. The built-in stand allows for tilt adjustment up to 180°, making it easy to adjust the screen's position to suit your current needs. An additional advantage is its compatibility with the VESA 75 × 75 mm mounting standard, allowing the monitor to be mounted on a wall or an arm.

Ready to use anywhere

The monitor can be powered in several ways, including via a USB charger, power bank, or computer, which increases flexibility for use outside the office. For models with a screen size larger than 16 inches, the manufacturer recommends using a Power Delivery adapter with a minimum output of 30 W, especially if screen flickering or insufficient brightness occurs. The built-in dual speakers deliver clear stereo sound with well-balanced tones, making the monitor ready for work and entertainment without the need to connect additional speakers.

Included

- Monitor x1
- USB-A to USB-C power cable x1
- HDMI to Mini HDMI cable x1
