Gens Ace G-Tech 3300mAh 22.2V 60C 6S1P XT90 Lipo Battery.

The Gens Ace G-Tech is a battery that provides exceptional power and reliability, making it an ideal choice for demanding RC users. Thanks to Lipo technology and high performance, this battery offers not only high capacity, but also excellent durability and stability under harsh conditions.

High capacity and power - ready for intensive use

With a capacity of 3300mAh and a voltage of 22.2V (6S), the Gens Ace G-Tech battery provides long-lasting power, ideal for use in RC models requiring a stable and powerful power source. With a maximum discharge current of 60C, this battery will stand up to even the most demanding tasks, offering maximum performance during intense flying or driving.

The optimal choice for professional applications

This Lipo battery is ideal for use in advanced models such as the kx017001a and Align Trex 600. With its impressive performance and reliability, it is an excellent choice for enthusiasts and professionals alike who are looking for the perfect power supply for their RC machines.

Safe charging and thoughtful design

Gens Ace G-Tech recommends charging in the 1-3C range for optimal battery charging, ensuring the safety and longevity of the cells. The maximum charging rate is 5C, which gives you flexibility, especially in situations where you want a fast charge. With a weight of 526 g and dimensions of 137 x 42 x 44 mm, the Gens Ace G-Tech battery pack is light enough not to hinder your equipment, but still delivers enough power to meet the demands of high-quality RC models.
