

Freewell Pro SSD Link Drive Adapter

Model: FW-CR04

Manufacturer: FREEWELL

EAN: 4897143171652

Product Code: 1251420

R1,958

Freewell Pro SSD Link Drive Adapter

The Freewell Pro SSD Link is a compact adapter for M.2 2230 NVMe drives that lets you expand your smartphone's storage by up to 8 TB and take advantage of the fast USB 3.2 Gen 2 interface with a throughput of up to 10 Gb/s. It is designed for the iPhone 15 Pro and newer models, as well as the Samsung Galaxy S25 Ultra, enabling direct recording of 4K ProRes footage to an external SSD. The adapter also offers 100 W PD pass-through charging, a dedicated USB-C port for digital audio, and an intelligent active cooling system, making it ideal for demanding recording sessions.

Expand your phone's storage up to 8 TB

The adapter supports M.2 2230 NVMe drives with capacities up to 8 TB, providing ample space for videos, photos, and other files. This allows you to record high-quality content without having to constantly free up phone storage, as files are saved directly to a fast SSD.

10 Gb/s Transfer Speed and Smooth 4K ProRes Recording

The USB 3.2 Gen 2 interface provides data transfer speeds of up to 10 Gb/s, and support for UASP and TRIM technologies allows you to take full advantage of the performance of modern SSDs. This translates to fast copying of large files and the ability to record 4K ProRes footage directly to an external drive without any loss of performance.

Simultaneous charging, recording, and digital audio support

The device features an integrated USB-C data port for direct connection to a phone or computer, as well as two additional USB-C ports: a 100 W PD port for charging and a dedicated audio port. This allows you to power the device, record footage, and use a compatible microphone all at the same time. The audio port supports only the digital audio transmission standard—it does not support devices that use an analog signal.

Smart cooling and stable MagSafe mounting

The built-in active fan, working in conjunction with an aluminum heat sink, activates automatically when the temperature reaches 35°C, helping to maintain stable performance during extended recording sessions and intensive data transfers. The magnetic MagSafe system with a non-slip silicone surface ensures a secure attachment to compatible smartphones, camera rigs, and gimbals, enhancing comfort whether you’re working in the studio or on location. The set also includes a flat 10 Gb/s USB-C cable, which allows you to take full advantage of the interface’s bandwidth and ensures a stable connection.

Included

- Freewell Pro SSD Link Adapter
- Flat 10 Gb/s USB-C cable

Manufacturer	Freewell
Model	Pro SSD Link

itworkup.co.za | sales@itworkup.co.za | +27 (11)541-9950

Product type	M.2 2230 NVMe SSD adapter
Supported drives	M.2 2230 NVMe
Maximum drive capacity	up to 8 TB
Data interface	USB 3.2 Gen 2
Maximum Transfer Speed	up to 10 Gb/s
Supported Technologies	UASP, TRIM
Recording Support	direct 4K ProRes recording to SSD
Power	USB-C Power Delivery up to 100 W (pass-through)
Ports	USB-C PD 100 W, USB-C Audio (digital audio only), integrated USB-C port for data transfer
Cooling	active fan with aluminum heat sink
Fan activation	at 35°C
Mounting	MagSafe with a non-slip silicone surface
Compatibility	iPhone 15 Pro and newer models, Samsung Galaxy S25 Ultra
