R8,619

BlitzWolf BW-V11 Projector

Create your own home theater with the BlitzWolf BW-V11 projector. With 1100 ANSI lumens of brightness and Full HD 1080P resolution, the image is crisp and full of detail even with the lights on. Dolby Vision and HDR10 support guarantees intense colors and high contrast, making movies and TV series look even better. The Google TV system with licensed Netflix provides access to thousands of apps, and the built-in Chromecast allows you to stream content wirelessly. A powerful 20W Surround Subwoofer sound system enhances the experience, offering deep bass and surround sound. The unit supports a maximum screen size of 200 inches, making it ideal for both small and large rooms. The set includes a remote control.

A picture that impresses

Thanks to Dolby Vision and HDR10, colors are vivid and you can enjoy cinema quality at home. Auto Focus ensures that the picture always remains clear, and $\pm 30^\circ$ Keystone Correction eliminates

distortion. Auto Keystone Correction and Auto Focus are just a click away, allowing you to quickly adjust the image without having to do manual setup. The projector automatically adjusts the image and corrects for perfect alignment with the screen or wall.

Adapt to any space

The projector automatically detects obstacles and corrects the image alignment to best fit the screen or wall. With a 1.18:1 throw ratio, you can get a large image even in small rooms. As a result, the device is perfect for both the living room and bedroom.

Full viewing freedom

Widevine DRM L1 support and access to more than 5,000 apps on Google TV make the projector act as a full-fledged entertainment center, providing Full HD content. Built-in Netflix allows you to watch your favorite movies and series without additional devices. With Chromecast, you can stream video from your phone or laptop in seconds, and the Hey Google voice assistant lets you search for movies, launch apps and operate the projector without a remote control.

Surround Sound

The 20W Subwoofer Surround system makes sound clear and full of depth. Dolby Audio support provides an even better experience when watching movies and listening to music. The ability to connect external speakers via Bluetooth 5.0 or the 3.5mm AUX connector allows you to customize the sound to your preference.

Great compatibility

The BlitzWolf BW-V11 projector supports 2.4G + 5G Wi-Fi, providing a stable internet connection and smooth playback of high-quality content. Bluetooth 5.0 allows you to connect additional accessories such as a mouse, keyboard or gamepad. The HDMI 2.0 port allows you to connect consoles and laptops, and with the USB 2.0 input, you can play movies directly from a portable memory stick. Support for SSD and HDD drives guarantees constant access to your media library. The device runs on Android 11 and is equipped with a Cortex A53 processor and 2GB RAM, so applications run extremely smoothly and you can quickly switch between content.
