R5,151

Bring on the bass beats! This party speaker plays loud with a whole lot of feeling. Our Bass+ tech delivers deep, distortion-free bass at any volume. Full-speaker party lights, dual mic, guitar inputs and echo effects bring the fun.

Easy control via speaker panel or our companion app

You can take control of the volume, lights and karaoke effects via the speaker panel—or use the

Philips Entertainment app, which also lets you fine-tune bass and treble frequencies. Want to keep the neighbours happy? You can turn Bass+ off and scale back the bass via our app or the Bass+ button on the speaker.

GRS-certified recycled plastic. Responsible packaging

Post-consumer recycled plastics are used in this speaker and our packaging is plastic-free. Inserts are printed on recycled paper with soy-based ink and the packaging itself uses FSC-certified recycled cardboard.

Big sound for epic parties. 100 W RMS and Bass+

Love a good bassline? With two 8" woofers and our exclusive Bass+ technology, the bass on this party speaker will sound deep, rich and full—even if you're listening at lower volumes while chilling out at the end of the night. You get 200 W max (100 W RMS) of earth-shaking sound and the two 2" tweeters mean vocals don't just sing, they soar.

Cue the tunes! Bluetooth®, AUX-in and USB playback

Stream your playlists, plug in a USB drive or go ahead and hook up your DJ decks or CD player via audio-in. If you're streaming tunes, Bluetooth® 5.4 brings you a faster, steadier connection for better sound quality that won't dip. It also gives you a wider range so you can control those playlists from practically anywhere in the party.

TWS and Auracast™ for multi-speaker setups

Want more? For a wider soundstage, you can pair with another TAX5000E speaker via True Wireless Stereo (TWS). For bigger events or the ultimate house party, you can broadcast the tunes to as many Auracast™ compatible speakers as you could ever need! Send the beats around the house or create a wall of sound in one room.

Mic and guitar inputs, plus echo effects

There's nothing like a karaoke session or impromptu live performance for bringing everyone together. This party speaker comes equipped with two mic inputs and a 6.3 mm guitar input: you can control mic and guitar volume, and add echo effects using physical controls on the speaker panel or use our companion app.

Full-speaker lightshow. Club vibes from top to bottom

When the tunes are pumping, a rainbow of colourful RGB LED lights shimmer and pulse on the surface of the twin woofers as well as along the sides and the bottom of the speaker. There are 13 light-effect modes to choose from: simply press the light button on the speaker or use our companion app to get the lightshow started.

Replaceable, rechargeable battery pack and AC input

Built to keep the party tunes coming, this speaker features a rechargeable 5200 mAh lithium-ion battery that gives you up to 14 hours of play time on a single charge. You can recharge via AC power (approximately 4 hours), so the music doesn't need to stop. Plus, the battery pack can be easily swapped out when it reaches the end of its life.

Built-in carry handle and wheels. IPX4 splash proof

Roll up to a friend's house. Set up on a patio. The carry handle and wheels make it easy to move this party speaker and it's splash proof, too. A little rain won't stop the tunes—and if you drop the bassline and hands go up with drinks still in them, just wipe off any spills and party on.
