The Lanberg LCF5-11CU-0305-S is a reliable bulk cable designed for network connectivity. Engineered with foiled unshielded twisted pair (F/UTP) technology, this CAT 5e cable supports bandwidths of up to 100 MHz, making it suitable for various data transmission applications. Its solid construction features copper conductors insulated with HDPE, ensuring durability and performance in diverse environments.

This cable offers length indication for easy handling and installation. Packaged in a carton box, it provides protection during transport and storage. The PVC jacket ensures resilience against wear, while the cable maintains operational efficiency in temperature ranges from -20 °C to 75 °C.

Compliant with Directive 2011/65/EU and Directive 2015/863/EU, the product aligns with environmental standards, making it a responsible choice for network infrastructure.
