AMZCHEF CE-FS-I95S-GFFDD0 5-Zone Induction Cooktop

The AMZCHEF CE-FS-I95S-GFFDD0 induction cooktop is a built-in model equipped with 5 independent cooking zones with a total power of 9500 W. The appliance offers cooking zones of various diameters—16 cm, 20 cm, and 23 cm—making it convenient to use both smaller pots and large pans for preparing family meals. Users have access to a Boost function, 9 power levels, touch controls with independent sliders for each zone, and a keep-warm function. Additionally, the cooktop is equipped with overheating protection, a child lock, a timer, and an automatic shut-off feature, which enhance the comfort and safety of everyday use.

Five cooking zones for preparing multiple dishes simultaneously

The AMZCHEF model is equipped with five powerful induction zones with power ratings of 2000 W, 2000 W, 2400 W, 2400 W, and 3200 W. This design allows you to cook several dishes at once, which is especially useful when preparing larger meals for family or guests. The different diameters of the cooking zones allow for a better fit with the cookware used, which translates to efficient energy use. Induction technology ensures rapid heat transfer directly to the bottom of the pot, helping to reduce cooking time.

Boost Function and Precise Power Control

The cooktop offers 9 power levels, allowing you to easily adjust the heating intensity to suit the specific dish you're preparing. Lower settings are ideal for gentle heating or simmering, while higher levels enable intense frying and rapid cooking. An additional feature is the Boost function, which temporarily increases the power of the selected cooking zone. This feature allows you to reach high temperatures faster when boiling water or preheating cookware.

Independent Control of Each Zone

The touch panel, featuring separate sliders for each zone, allows for convenient control of all cooking zones. Users can independently set the power level for each pot or pan without having to switch between zones. This feature streamlines everyday cooking and allows you to respond more quickly to changing needs while preparing meals. Additionally, the keep-warm function helps maintain cooked dishes at the right temperature until they are served.

Safety in Everyday Use

The cooktop is equipped with a range of safety features that ensure safe operation. The overheat protection monitors the appliance's operation and helps protect its components from excessive heat. The child lock prevents children from accidentally changing the settings. Additionally, the timer allows you to set the operating time for a selected cooking zone, and the auto-off feature enhances the convenience of using the appliance.

Durable Construction and Modern Design

The cooktop surface is made of matte black glass that is resistant to high temperatures and daily use. The smooth surface makes it easy to keep the appliance clean and blends well with modern kitchen furnishings. The 77 cm width provides ample workspace between the cooking zones, enhancing the cooking experience. This model is designed for built-in installation and requires connection to the electrical system via properly prepared wiring.

Included in the set

- AMZCHEF CE-FS-I95S-GFFDD0 induction cooktop
- User manual

Manufacturer	AMZCHEF
Model	CE-FS-I95S-GFFDD0
