

ARCTIC P14 PWM Pressure- optimised 140 mm Fan with PWM

Model: ACFAN00222A

Manufacturer: ARCTIC

EAN: 4895213703093

Product Code: 1252673

R1,151

The P14 PWM features completely redesigned fan blades and is optimised for high static pressure. Thanks to this, it is especially effective when used on heatsinks and in situations with higher air resistance. The wide RPM range from 200 to 1700 RPM can be regulated steplessly via PWM. The newly developed motor with a low coil temperature significantly increases the life span of the fan. Therefore we have extended the warranty to 10 years.
