The KAB029-305 Cat6 S/FTP Solid network cable delivers high-performance data transmission for demanding network environments. This cable features a solid 23AWG conductor with a diameter of 0.55mm. Designed with S/FTP (Shielded Foiled Twisted Pair) construction, it provides superior protection against electromagnetic interference (EMI) and radio frequency interference (RFI), ensuring a stable and reliable network connection. The LSZH (Low Smoke Zero Halogen) jacket makes it a safer choice for installations in public spaces and environments where fire safety is a concern. Supplied in a 305-meter length, this Cat6 cable is ideal for professional installations requiring custom cable runs. Trust MicroConnect's 20+ years of expertise for a network solution that combines premium quality, reliability, and safety, adhering to stringent European design and quality standards.
