

Cycplus AS280PRO Electric Pump

Model: AS280PRO

Manufacturer: CYCPLUS

EAN: 6976297861539

Product Code: 1253926

R1,715

Cycplus AS280PRO Electric Pump

The Cycplus AS280PRO electric pump is a lightweight and compact device designed for quickly inflating bicycle tires. It offers a maximum pressure of 120 PSI, a digital display with real-time pressure readings, a measurement accuracy of ± 1 PSI, and the option to select between PSI and BAR units. Thanks to its compact dimensions of $5.9 \times 7.6 \times 3.4$ cm and a weight of just 123 g, it easily fits in a cycling jersey pocket, bag, or backpack. The set includes a flexible hose, a Presta valve adapter, a waterproof case, and a user manual. Note: The set does not include a USB-C charging cable or a power adapter.

Compact size designed with cyclists in mind

The Cycplus AS280PRO was designed for people who value mobility and don't want to carry heavy gear. Weighing just 123 g, the device can be conveniently carried even in a cycling jersey pocket. Its compact dimensions of $5.9 \times 7.6 \times 3.4$ cm make it easy to stow the pump in a pannier, backpack, or

small bag. This means you always have it on hand and can quickly top up your tire pressure during a training session, a ride, or a longer trip.

Fast Inflation and Pressure Up to 120 PSI

The device can inflate a 700 × 25C road tire from 0 to 80 PSI in about 45 seconds, which significantly reduces the time it takes to get your bike ready to ride. The powerful motor efficiently fills the tire with air, making the pump ideal for use both before a training session and during unexpected situations on the road. The maximum pressure of 120 PSI allows you to inflate tires that require high pressure, especially on road bikes. Shorter inflation time means greater convenience and the ability to get back on the road quickly.

Digital display with real-time pressure measurement

The easy-to-read screen allows you to monitor pressure in real time while inflating, making it easier to achieve the exact pressure you need. The pump lets you switch between PSI and BAR units, making it easier to adjust settings to match the tire manufacturer's recommendations. An accuracy of ± 1 PSI enhances pumping precision and helps prevent underinflation or overinflation. The display also shows the battery charge level, making it easy to see when the device needs to be recharged.

Fast-charging battery

The pump is equipped with a 600 mAh battery, which, when fully charged, allows you to inflate up to 6 tires to 80 PSI or approximately 3 tires to 120 PSI (using 700 × 25C tires as an example). A full charge takes about 45 minutes, allowing the device to quickly become ready for its next use. The AS280PRO model is charged via a USB-C port, which allows you to use a standard phone charger or another power source equipped with the appropriate cable. Note: The USB-C cable and AC adapter are not included in the package.

A practical kit for any bike ride

The pump comes with accessories that make everyday use easier. The flexible hose allows you to conveniently connect the pump to the valve, and the Presta adapter enhances compatibility with popular road and sports bikes. The waterproof case facilitates safe storage and transport, protecting

the device from moisture and dirt. Thanks to its compact size and practical accessories, the Cycplus AS280PRO will be a convenient piece of equipment for both daily rides and longer cycling trips.

Included in the set

- Cycplus AS280PRO electric pump
- Flexible inflation hose
- Presta valve adapter
- Waterproof case
- User manual

Manufacturer	Cycplus
Model	AS280PRO
Maximum pressure	120 PSI
Measurement accuracy	±1 PSI
Pressure units	PSI / BAR
Inflation time	approx. 45 s (0-80 PSI for a 700 × 25C tire)
Battery	600 mAh
Charging time	approx. 45 minutes
Charging port	USB-C
Dimensions	5.9 × 7.6 × 3.4 cm
Weight	123 g
