Maono G1 Neo Sound Card (black)

The Maono G1 Neo is a versatile sound card that will enhance the quality of your broadcasts and recordings with professional sound, intuitive control and striking RGB lighting. The compact design makes it easy to fit on your desk, and the XLR input allows for quick microphone installation.

Great sound quality

The Maono G1 Neo sound card delivers top-notch sound quality with a built-in preamplifier and 48V phantom power to maximize the potential of your XLR microphone. In addition, precise gain and volume controls ensure that your audience will hear you loud and clear.

Ideal for streamers

One-click microphone or music mute functions give you precise control over your audio. What's more, two-level noise reduction (up to 20 dB and up to 30 dB) ensures clear sound and cuts through the noise. So you can easily host engaging streams or strategize with your team for the next duel in an online game.

Easy monitoring

The Maono G1 Neo offers exceptionally simple and intuitive audio control while streaming. This practical card supports features such as Loopback and Direct Monitor, allowing you to hear your voice in real time. This allows you to control the audio with ease! But it doesn't stop there - convenient operation of the device is made possible by built-in switches.

With Maono you sound the way you want

The sound card offers a voice change function - now you can effortlessly sound like a robot or a child! Its additional advantage is personalized buttons that allow you to create unique effects, so you can easily surprise your observers. There is also a reverb and sidechain function, which will come in handy when singing, for example.

Colorful RGB backlighting

The product also features stunning RGB backlighting, which gives it a unique gaming feel. You can also customize it to match the decor of the room you're streaming in by choosing from 11 original modes. The buttons and light bars on the case can be personalized with solid colors, gradients and even rainbow effects.

Wide compatibility

The Maono G1 Neo sound card is compatible with phones, computers and tablets. It allows seamless recording using most popular programs, such as OBS Studio, Discord, Twitch, TikTok, YouTube, Facebook, Streamlabs, StreamYard and Zoom. This means it will be perfect for many applications! The product also supports Bluetooth 4.2, allowing you to quickly connect to the equipment of your choice.
