

CPU COOLER ACC THERMAL PASTE/ACTCP00008B ARCTIC

Model: ACTCP00008B

Manufacturer: ARCTIC

EAN: 4895213701662

Product Code: 1255722

R701

MX-4 8g

PREMIUM Performance Thermal Paste

HIGHEST THERMAL CONDUCTIVITY

The surfaces of processor chips and cooler floors are covered with microscopic dents; ARCTIC's MX-4 thermal paste is composed of carbon microparticles which fill these cavities. This leads to extremely high thermal conductivity, guaranteeing that heat is dissipated quickly and efficiently from the CPU or GPU. With its outstanding performance, the MX-4 is not only an excellent choice for overclockers and enthusiasts, but also for other applications that require thermal transmission.
